How does our essentials account compare to the competition?

Most competitors hide their pricing behind request forms. We share our costs (and theirs) and offer you free account to get you started so you can scale your business with us.

	STORAGE	USERS	DOWNLOAD LIMIT	EST COST PER MONTH
 ASSETBANK	1tb	>25	None	£220
 Brandfolder	300gb	>30	None	£250
 bynder	100gb	>20	500pm	£300
 MightySighty	100gb	>10	None	£69

Getting started is straightforward

1.

Book a demo or sign up

Simply follow our step by step sign up process, a few questions, some basic information and that's it (enterprise models can be discussed with our team)

2.

Set up your account

Add your own logo, create brand spaces, set theme colours... All can be done to make your account truly yours.

3.

Start using it

Once ready your account is good to go. Start uploading, organising and sharing assets. Easy.

Use AI tools to find your assets

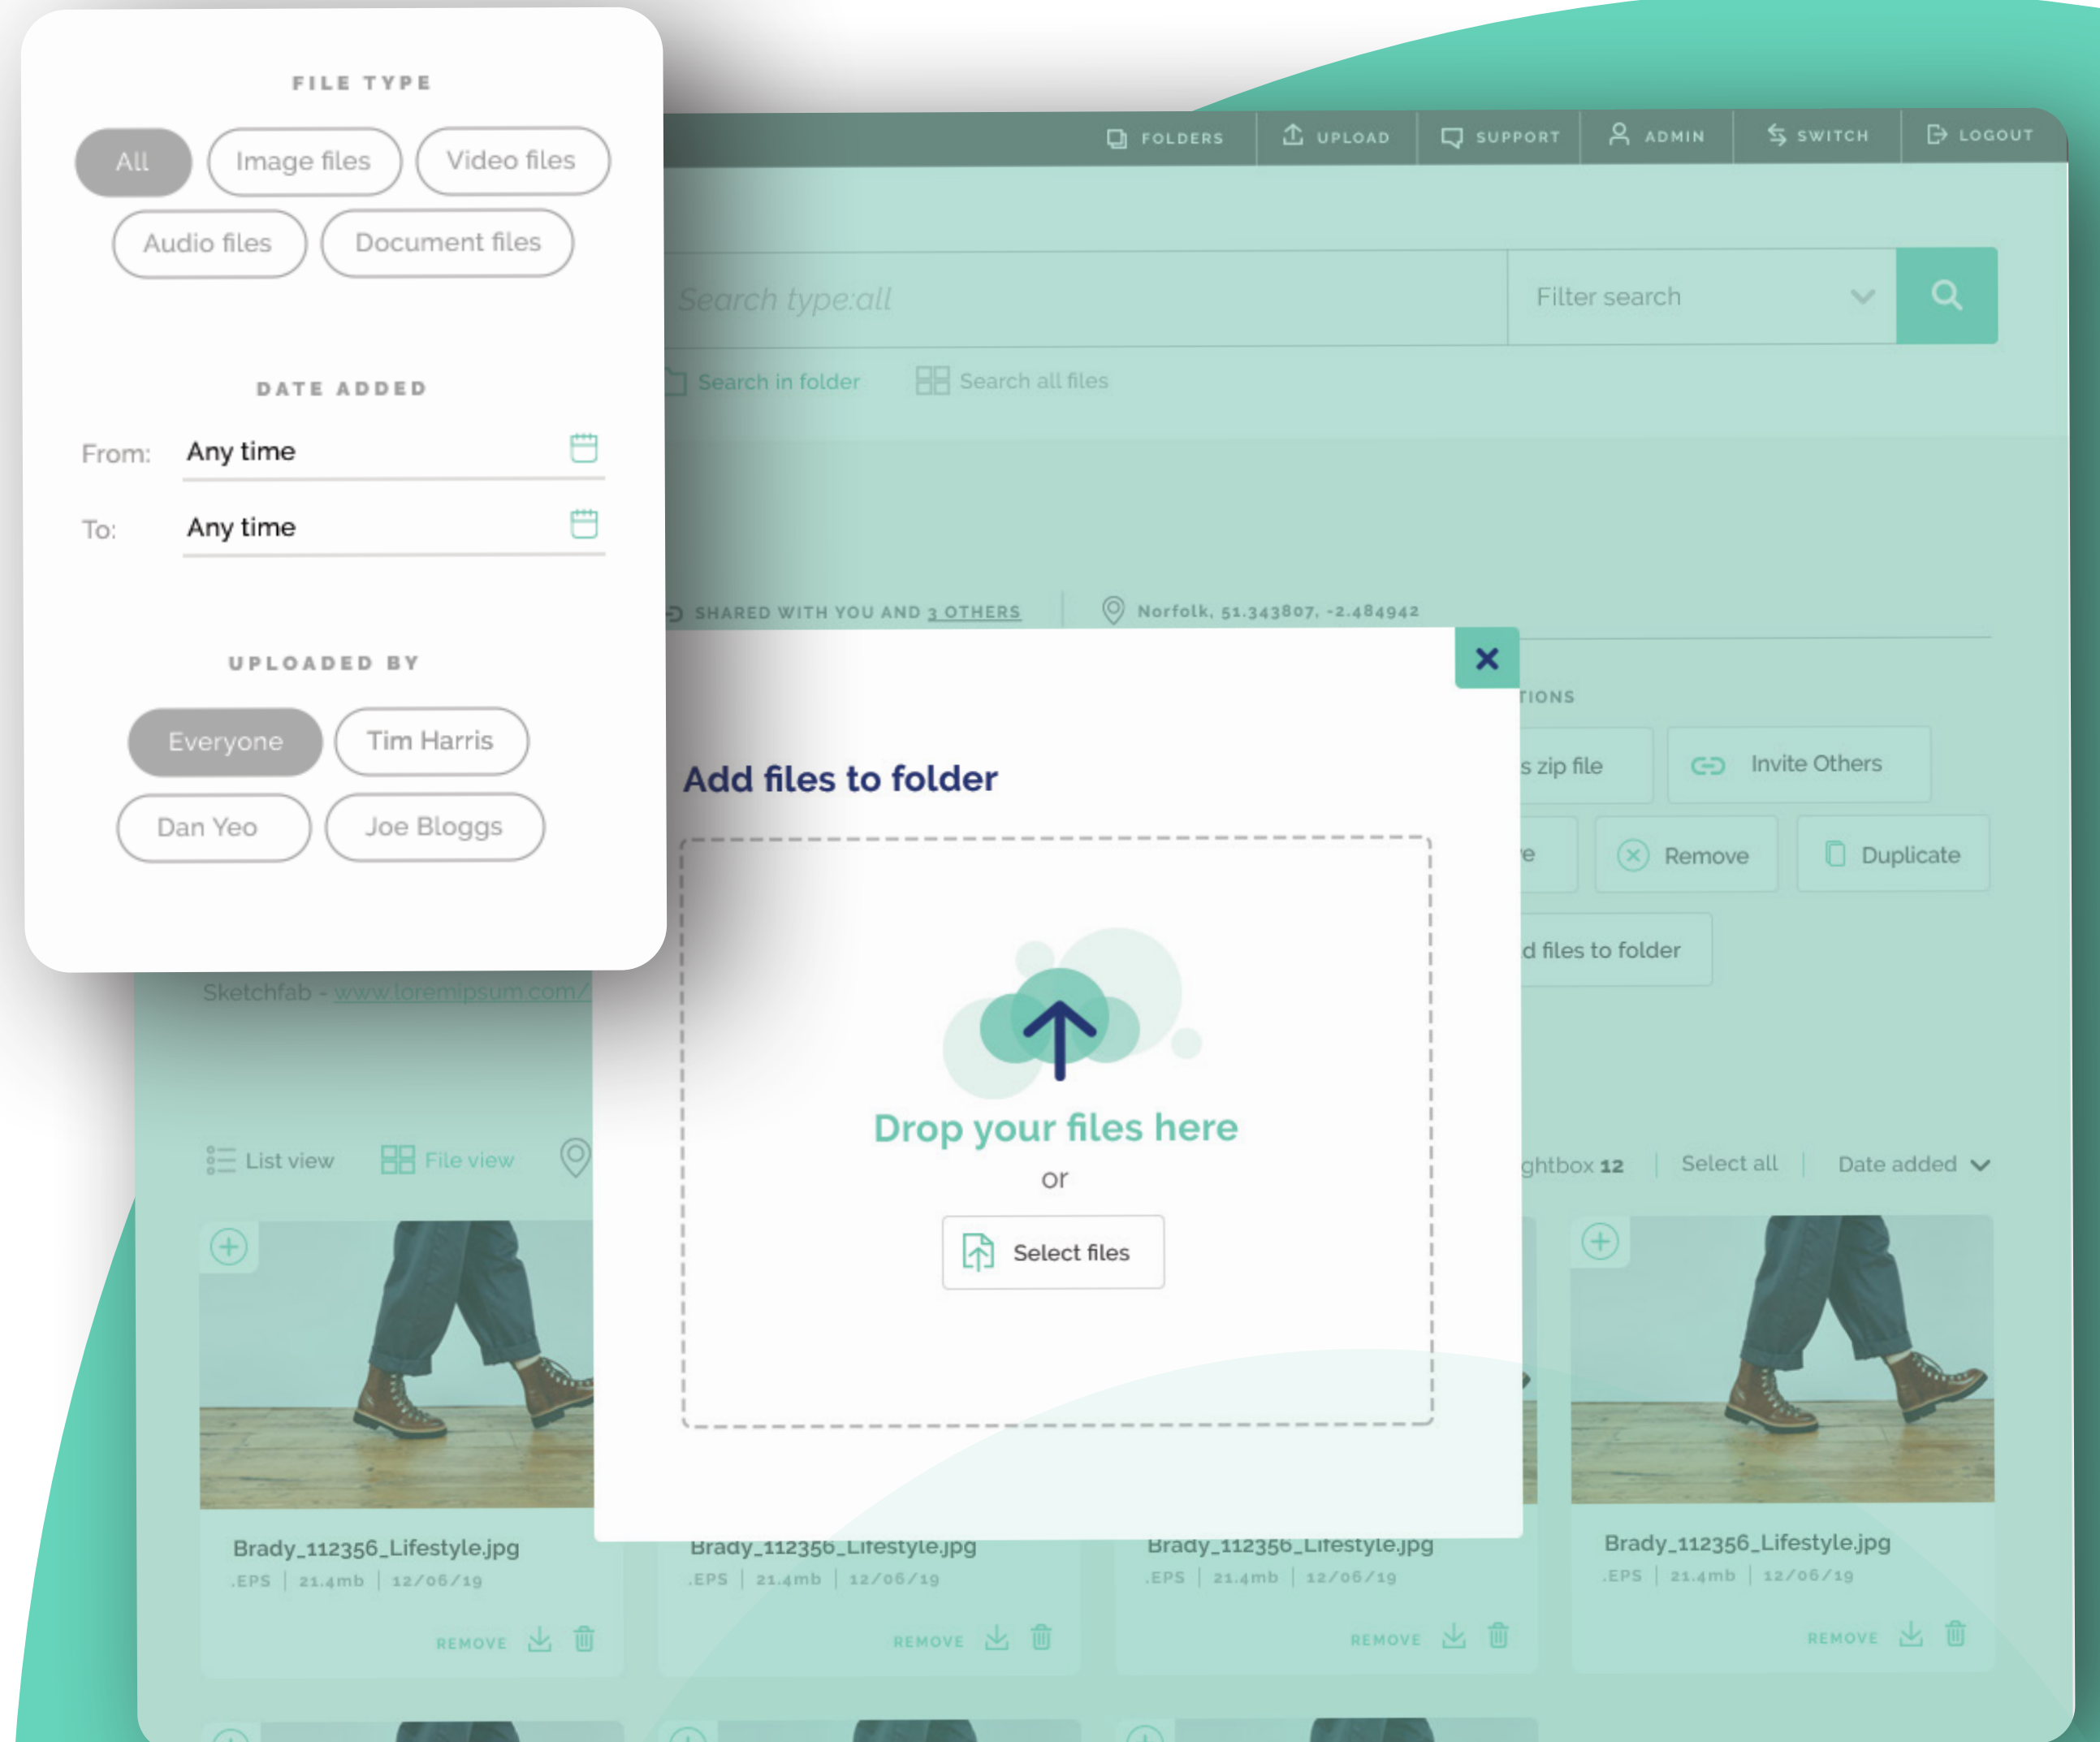

MightySighty harnesses the power of AI to provide handy tools. Use AI to identify objects within your images and videos, automatically tagging them to aid in search. Users can specify additional tags at any time. Plus Textraction technology so any words within your pictures can be searched as well. Smart.

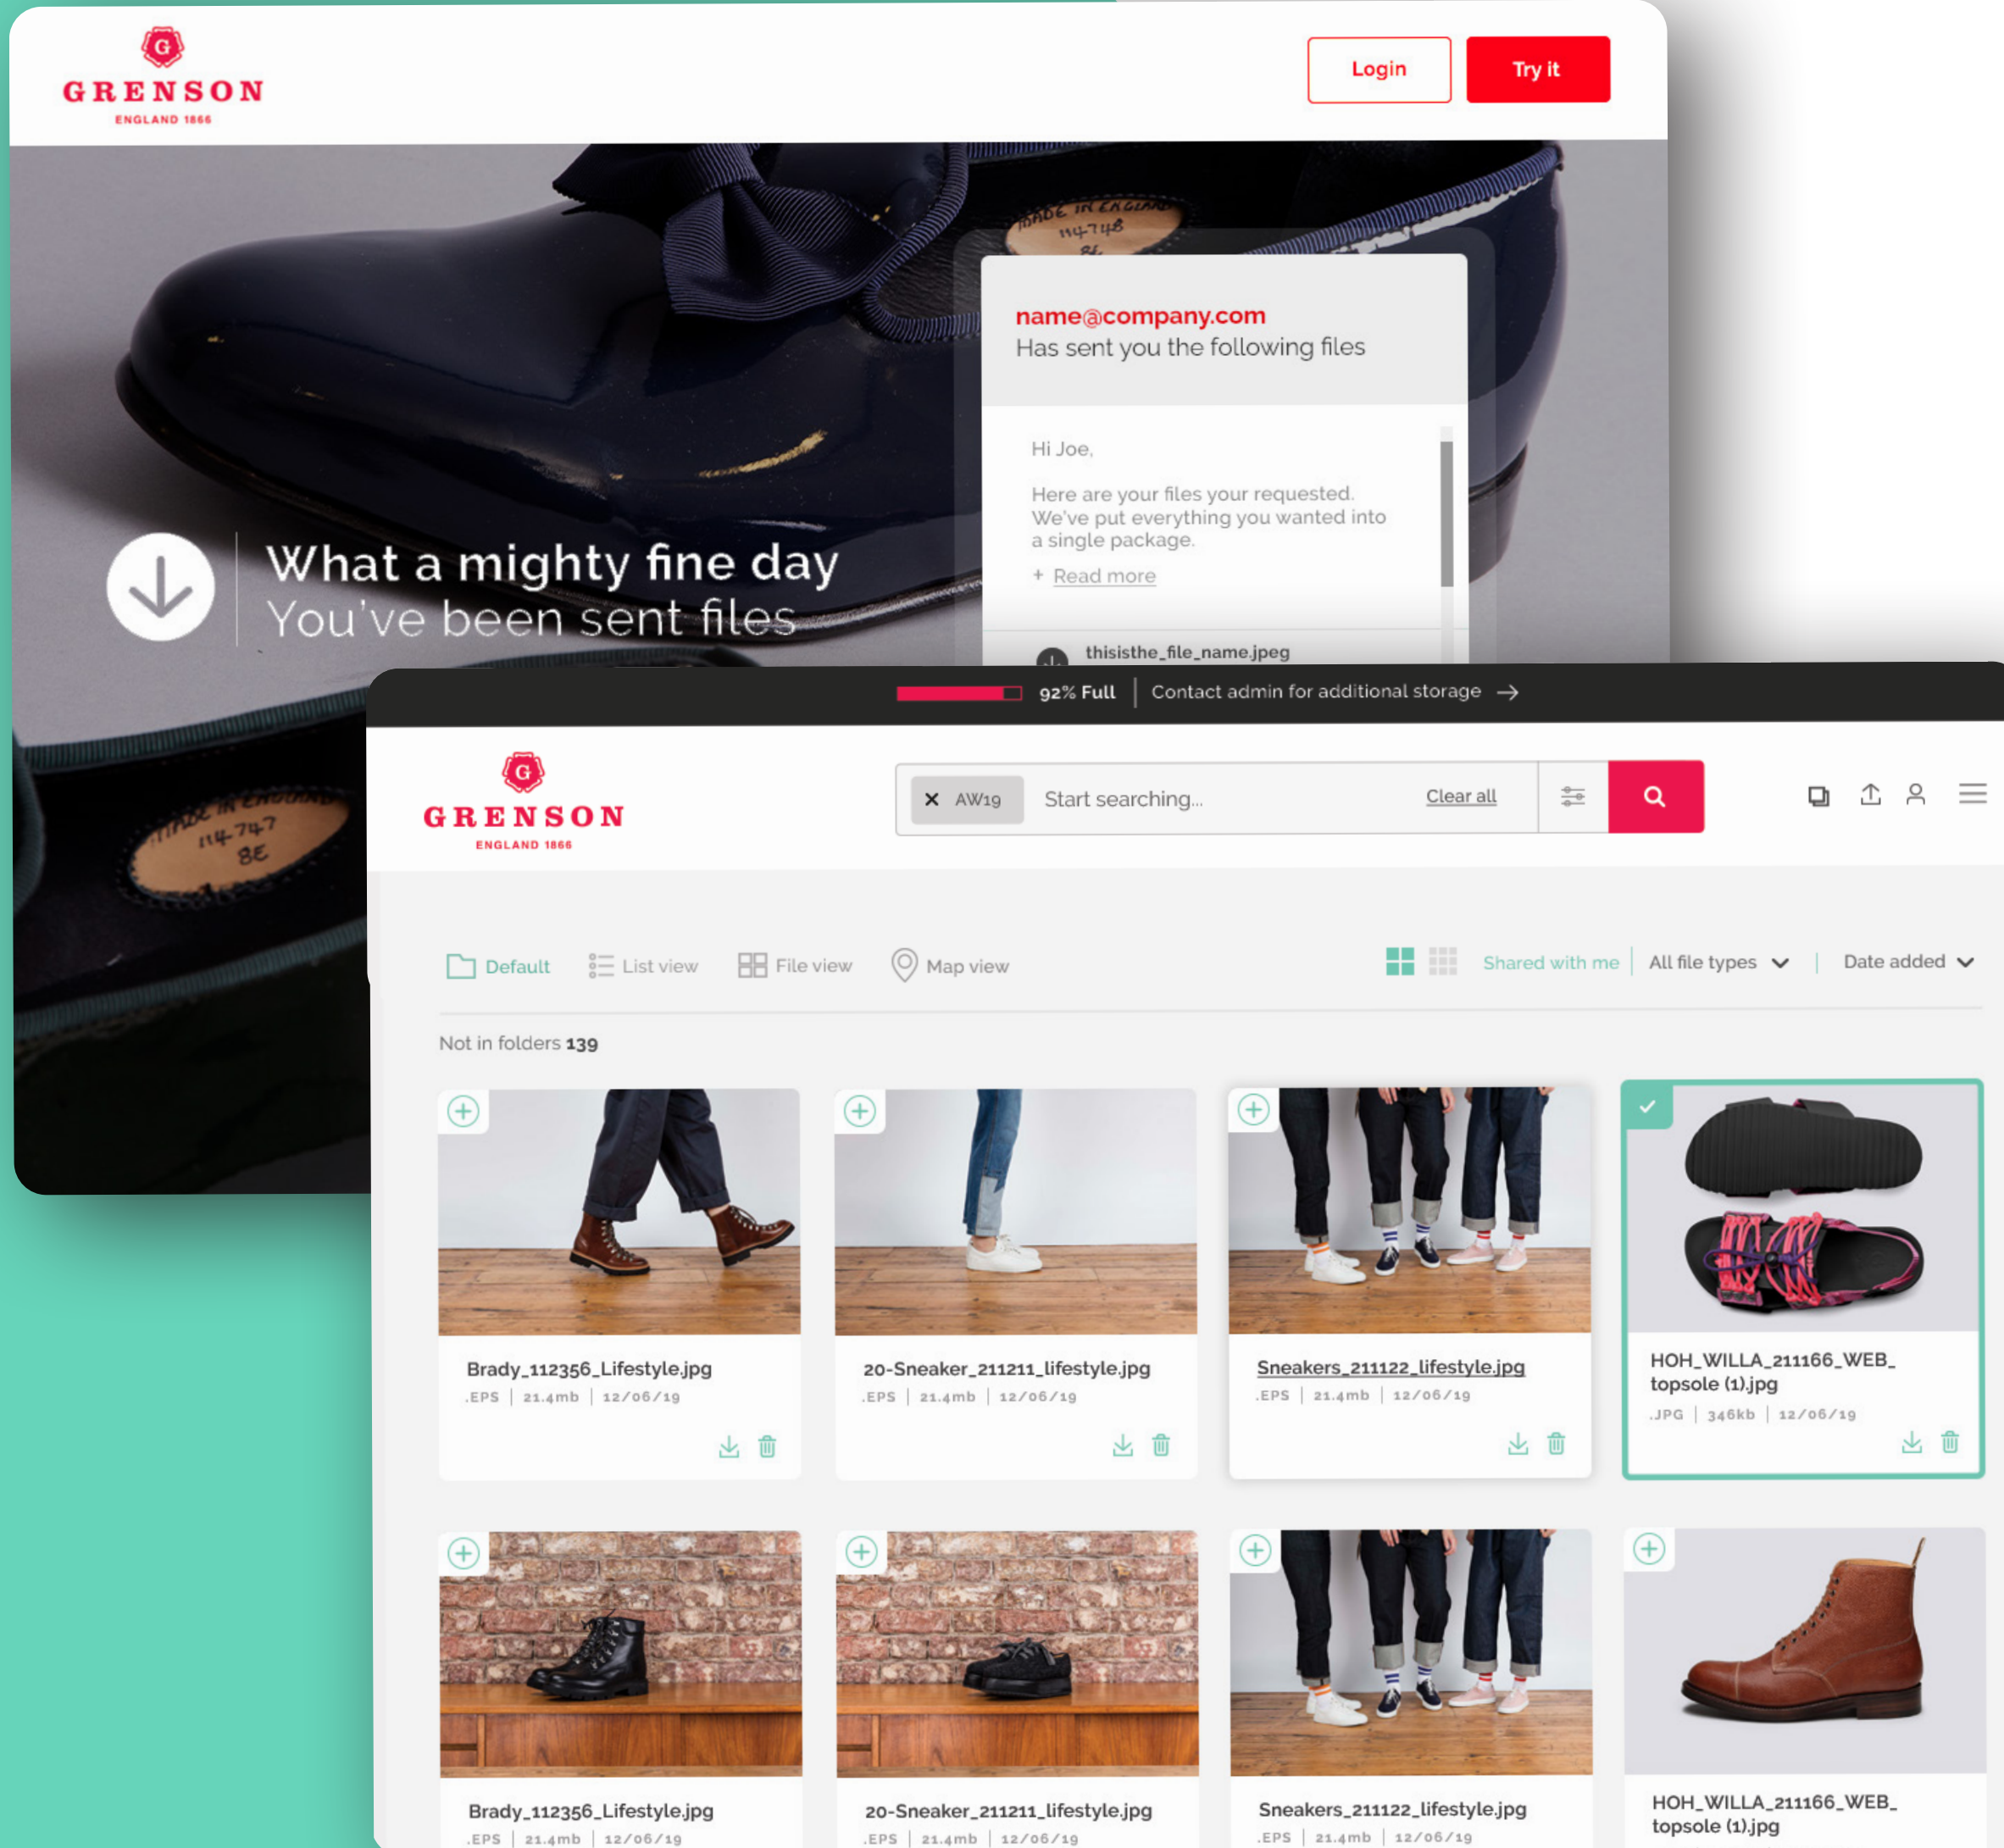

Similar Assets

The right tools to find the right assets

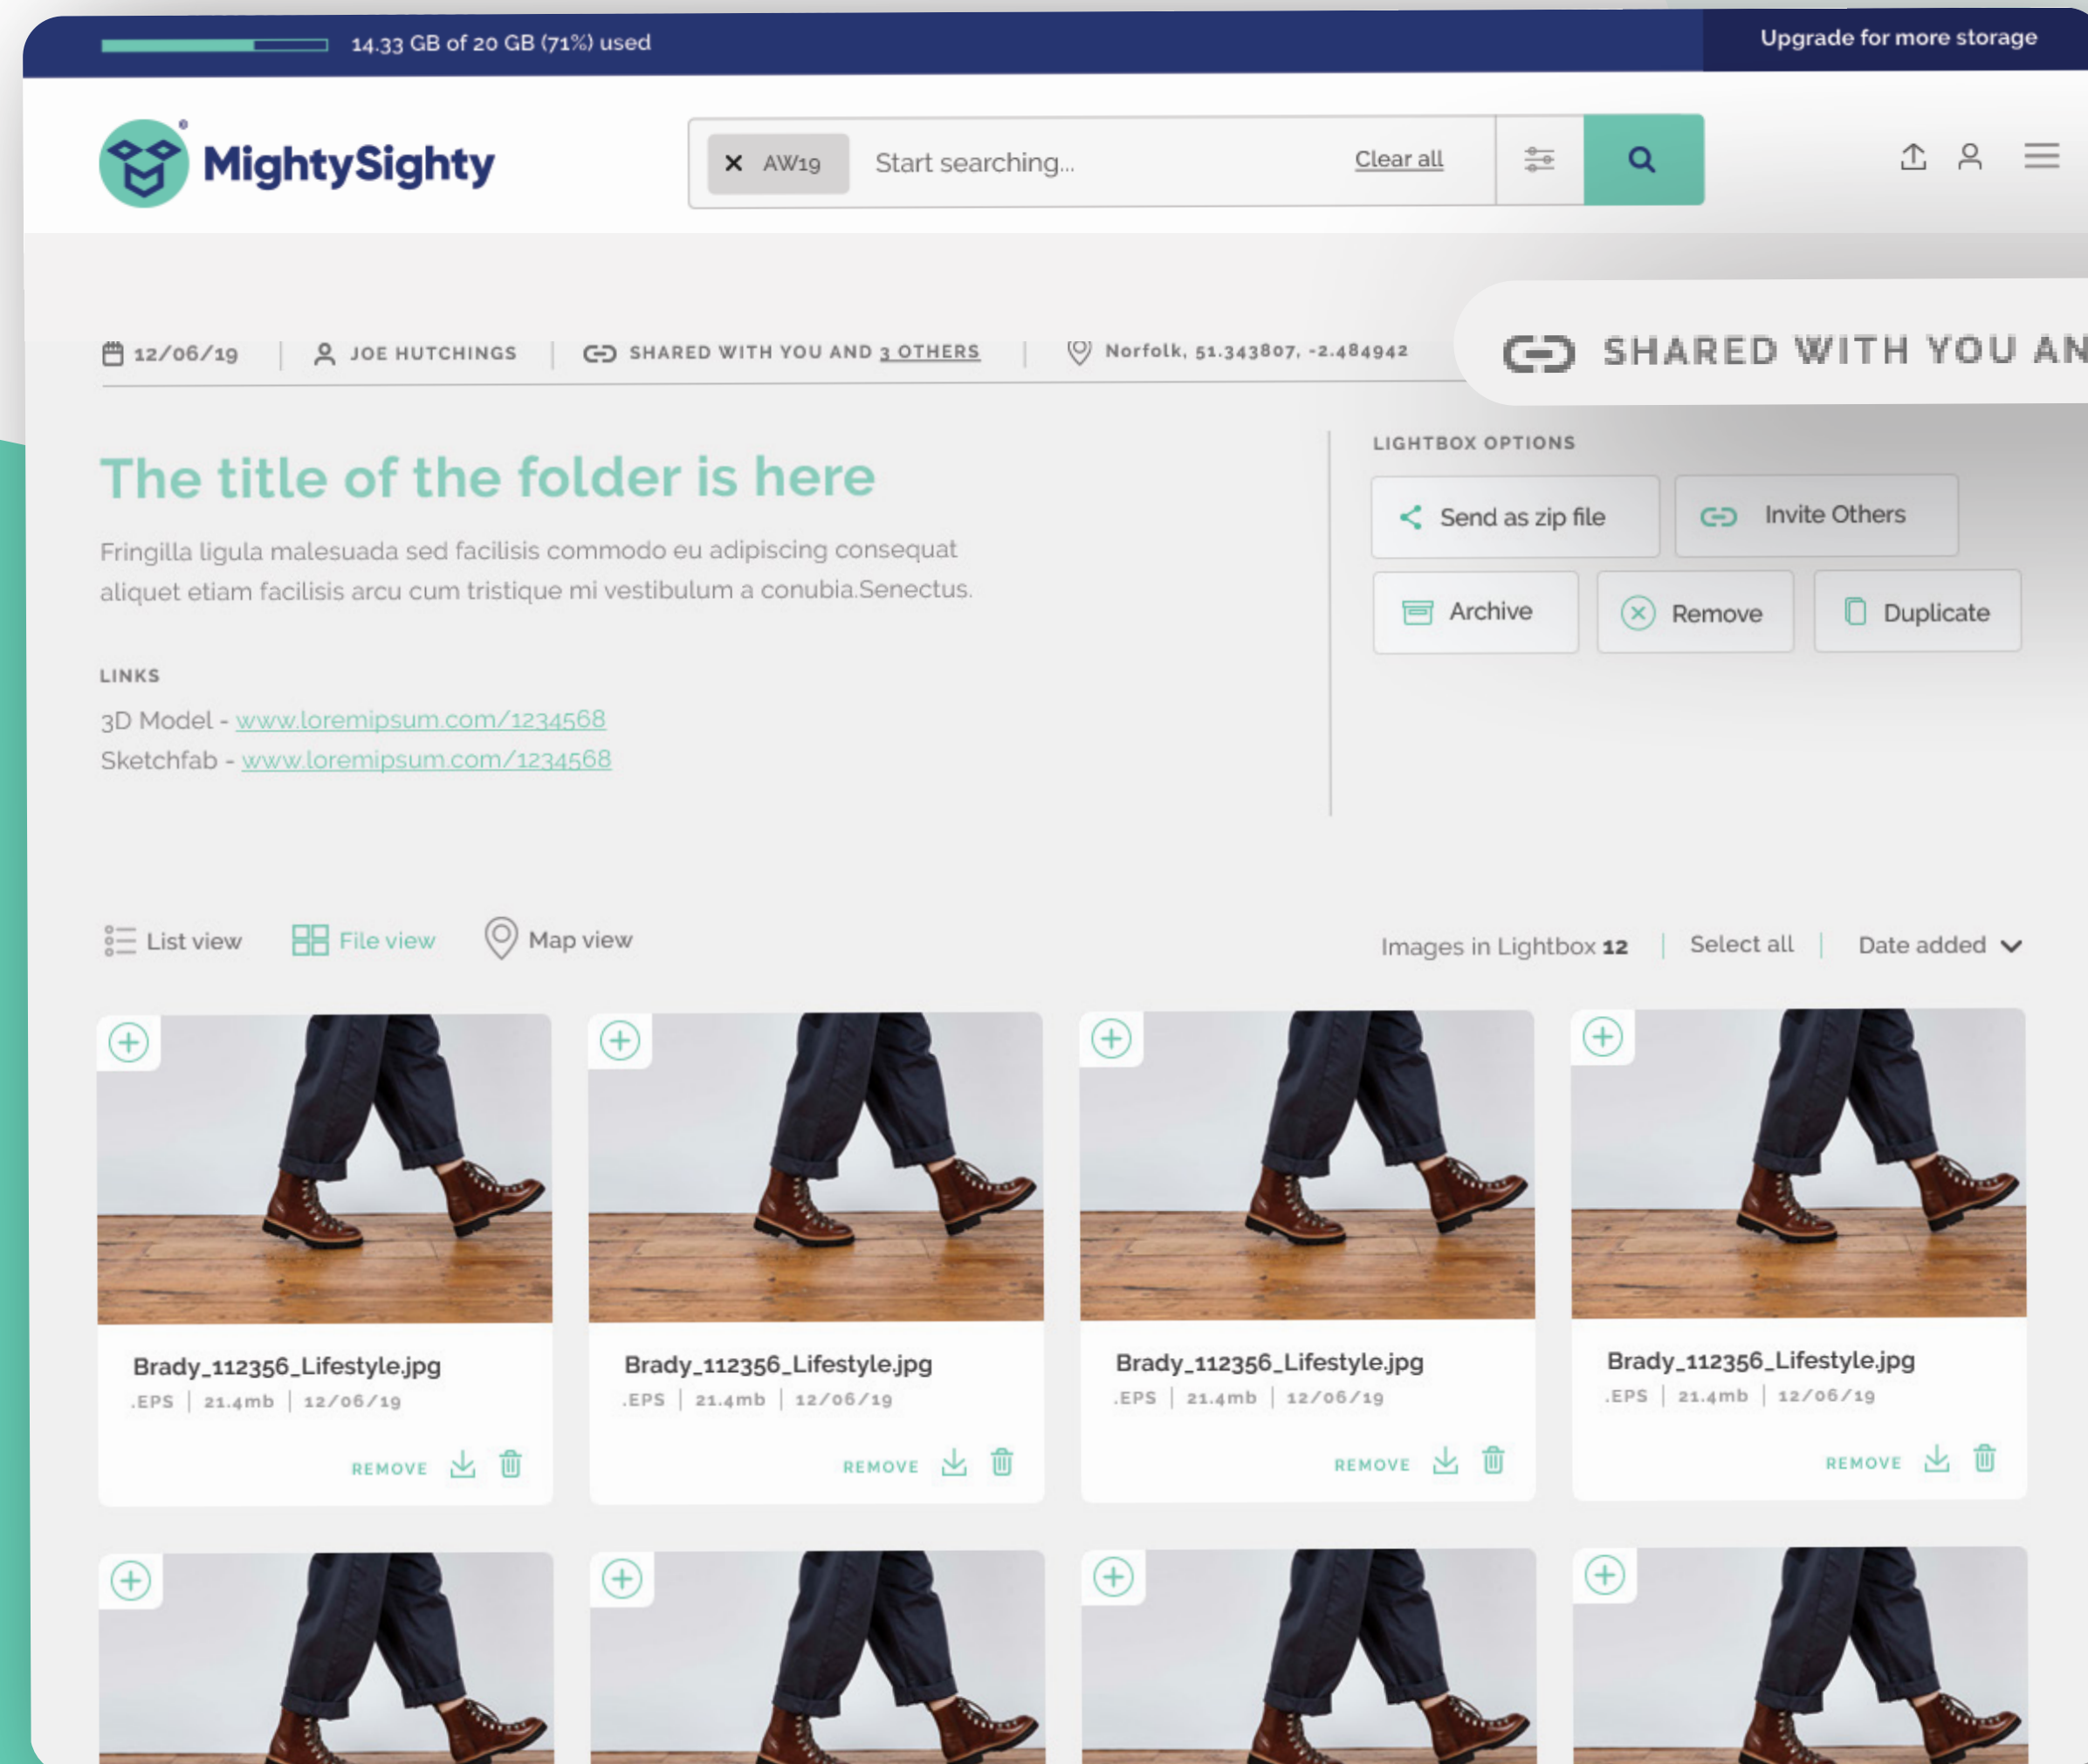

MightySighty utilises simple but intuitive search options to narrow down your hunt. Search by keyword, user, date ranges, file types, location and tags. It's simple and it works, no fuss.

Brand your space for a seamless third party experience

Your logo, colour scheme and URL to ensure you brand name stands out when sharing files with your customers and suppliers.

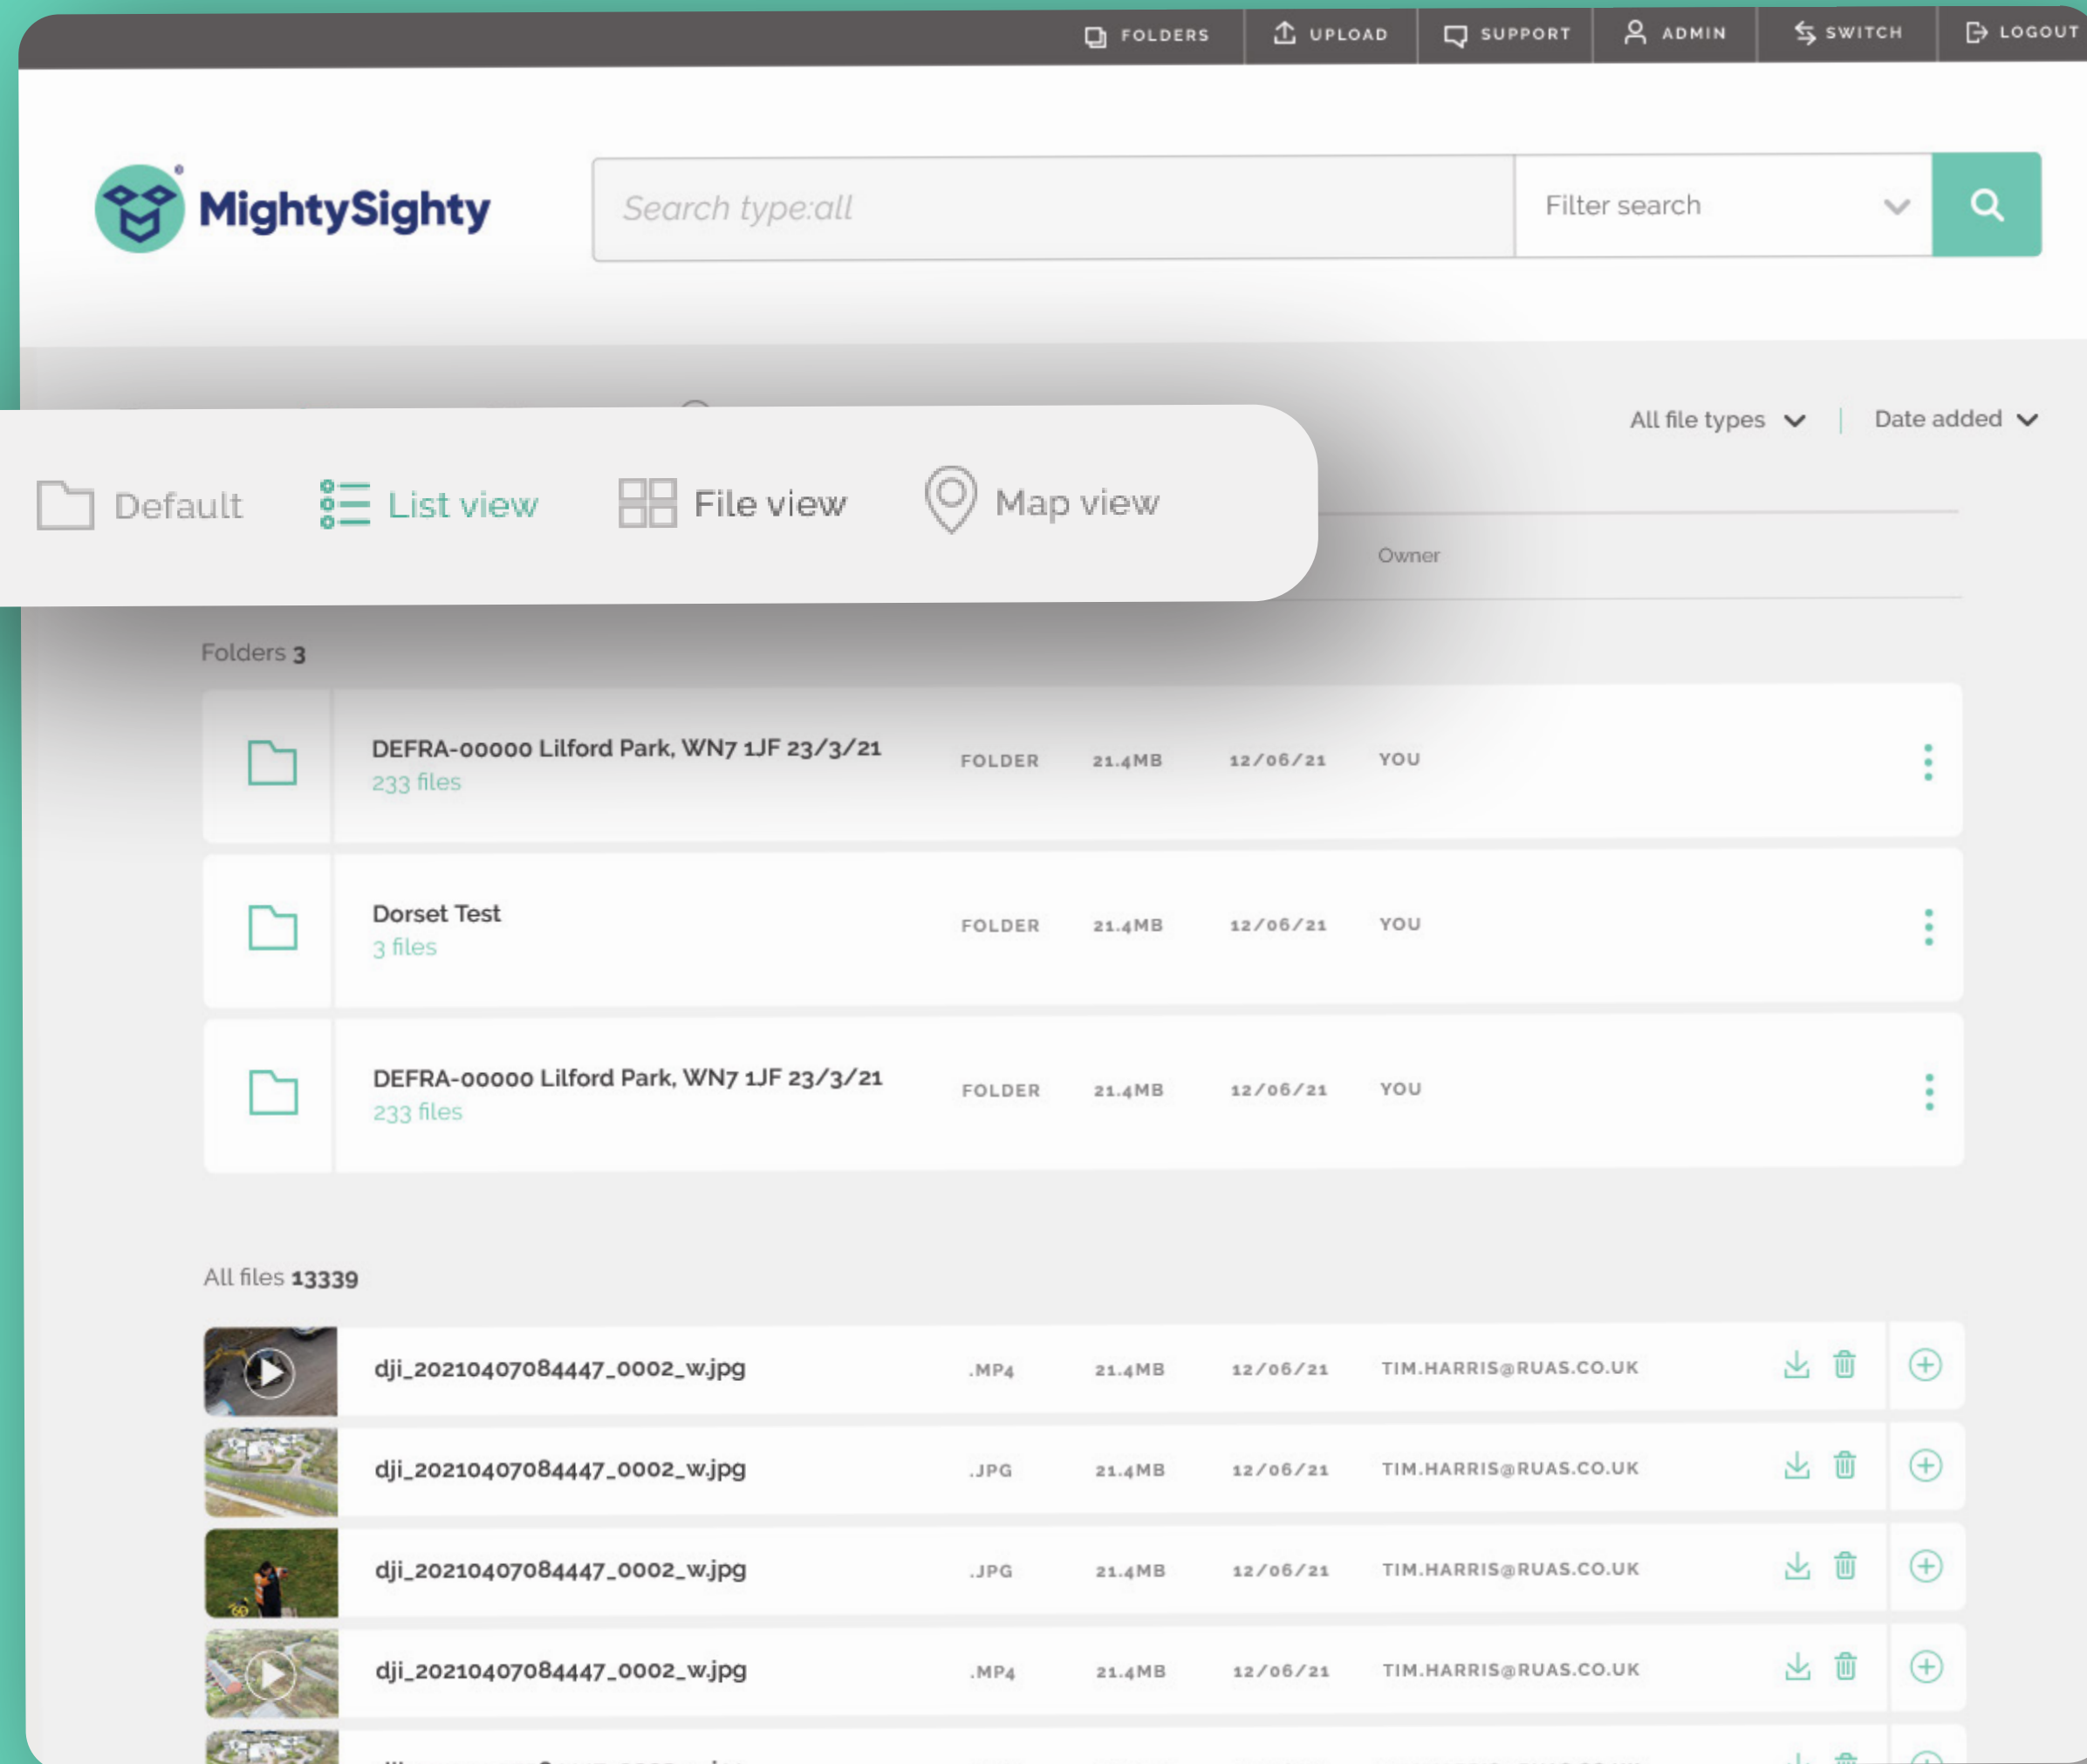

Folders with rights and ownership for easy organisation

Organise your business assets and documents with folders and choose who can see, access and edit them. Increases security and ensures only the right people see the right stuff.

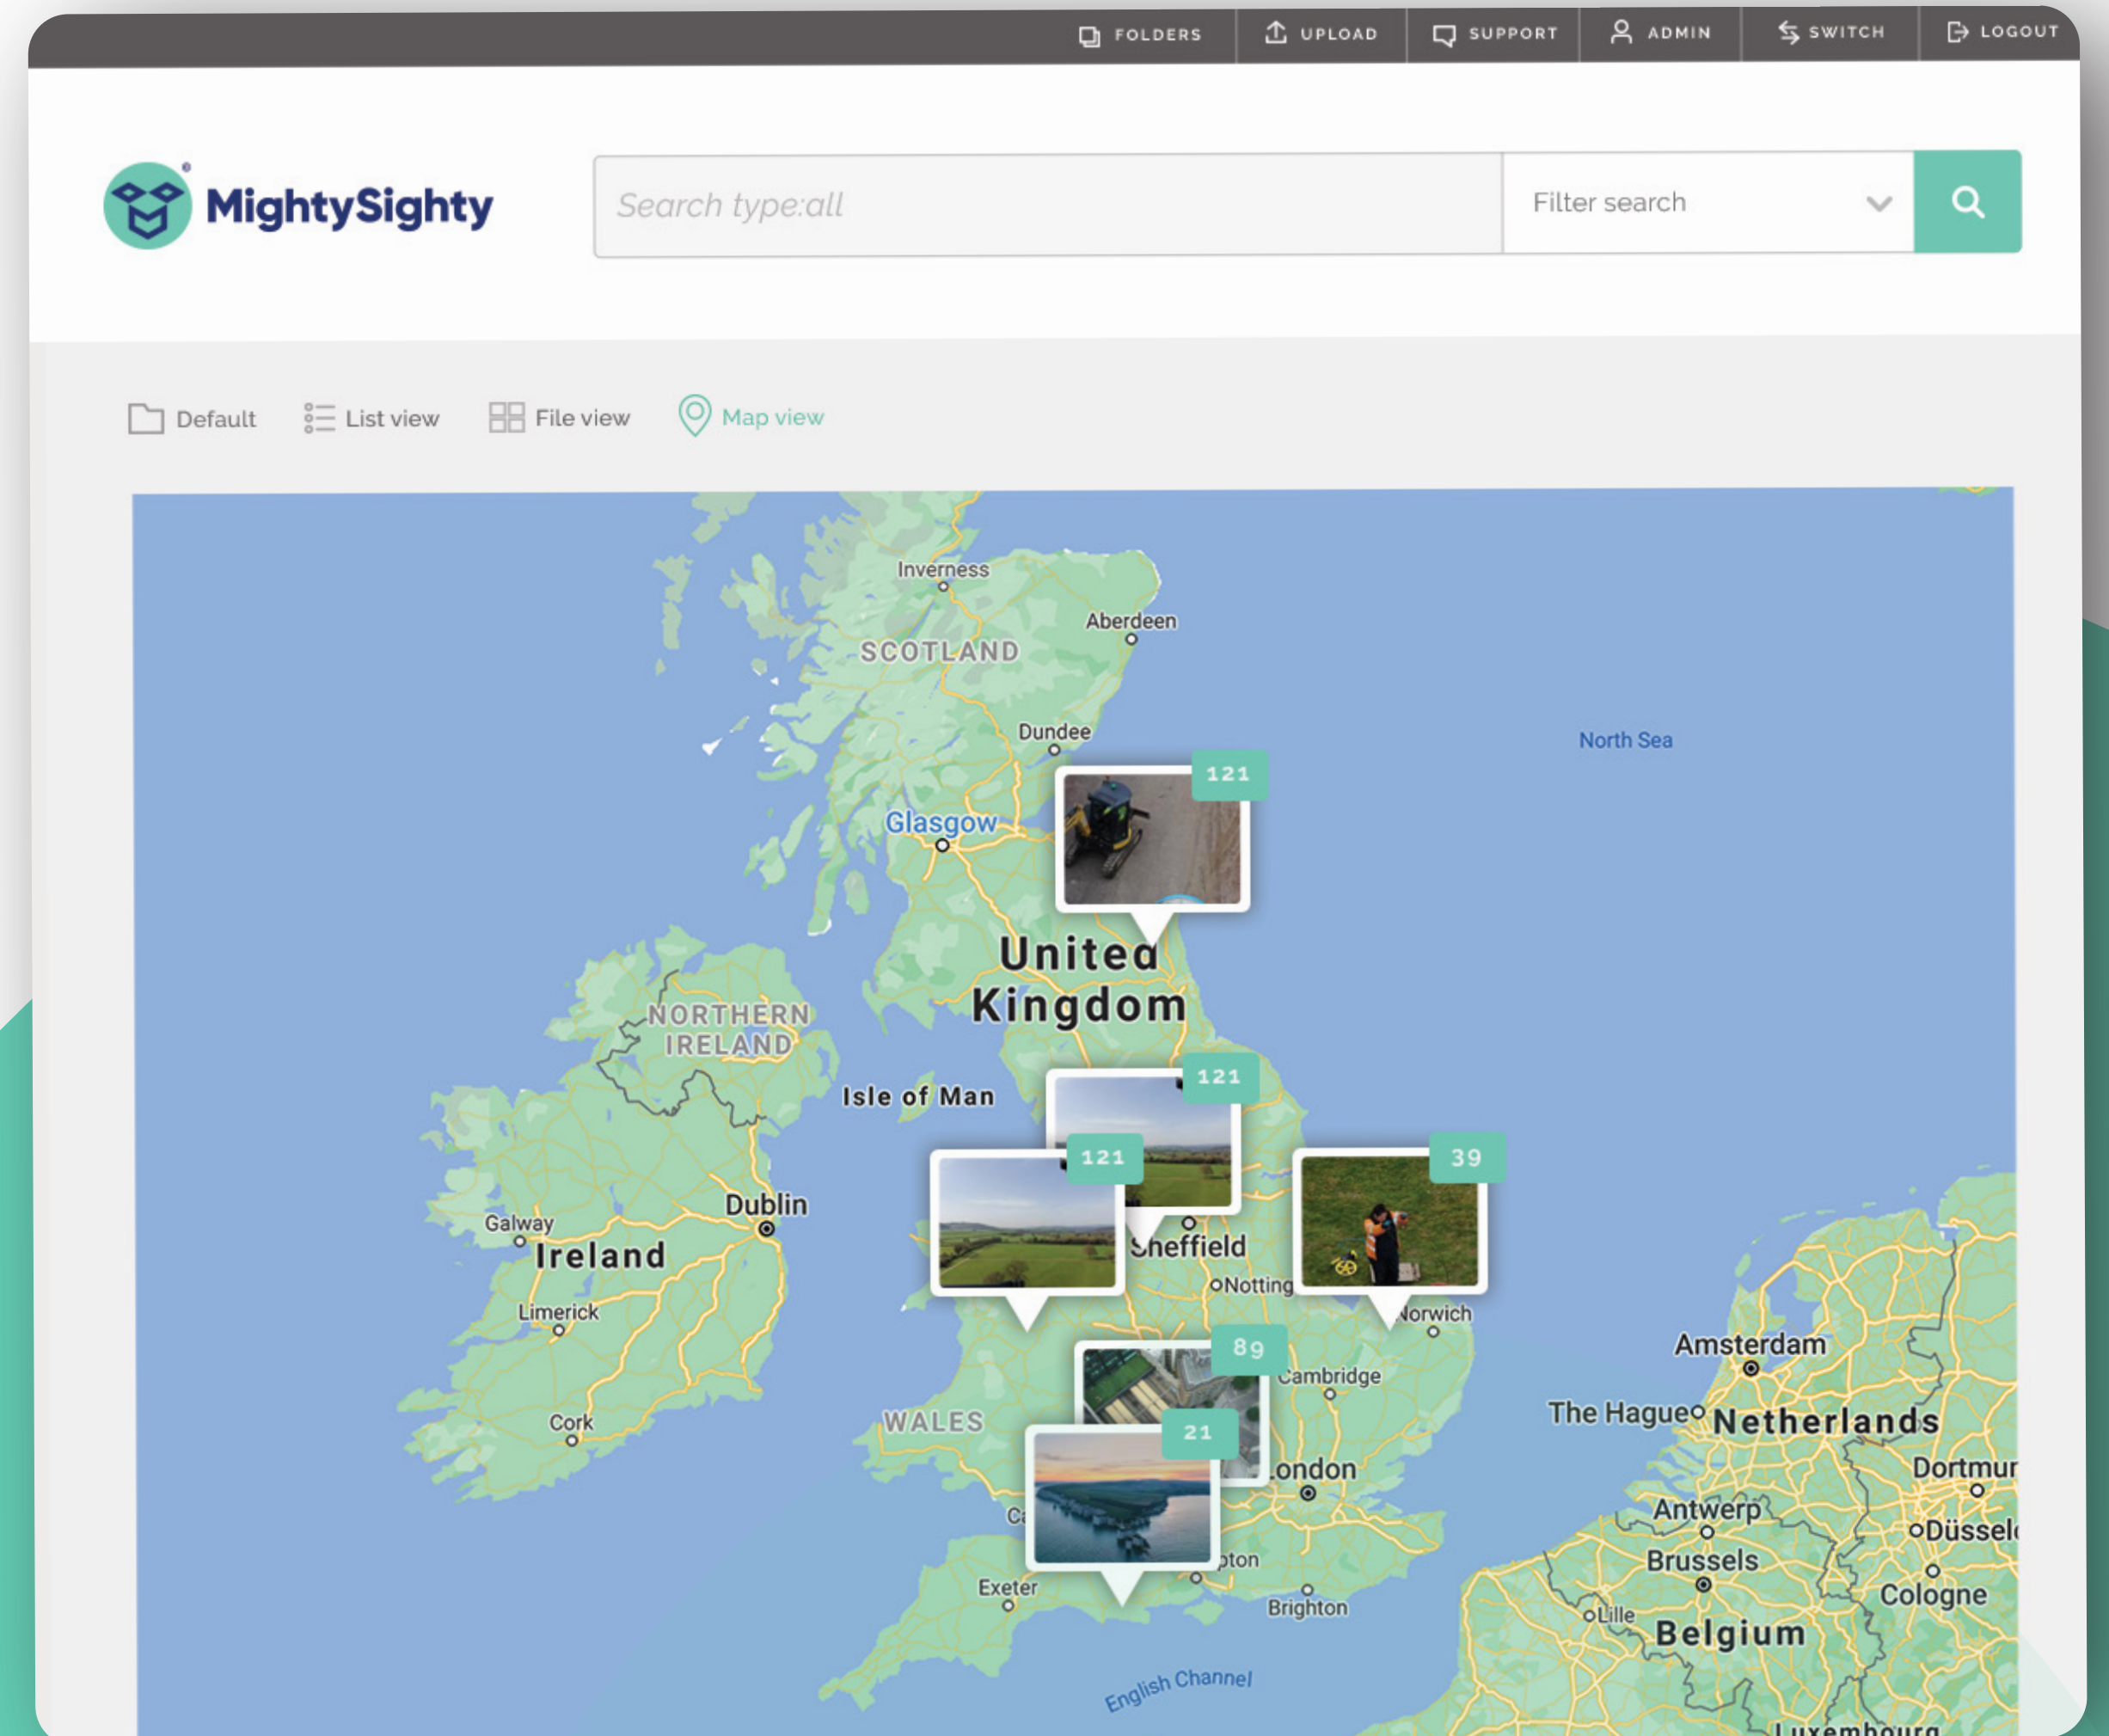

View options to tailor your experience

Although visually MightySightly makes finding and viewing images simple, we know everyone is different. Which is why there are multiple viewing options to make your experience work for you.

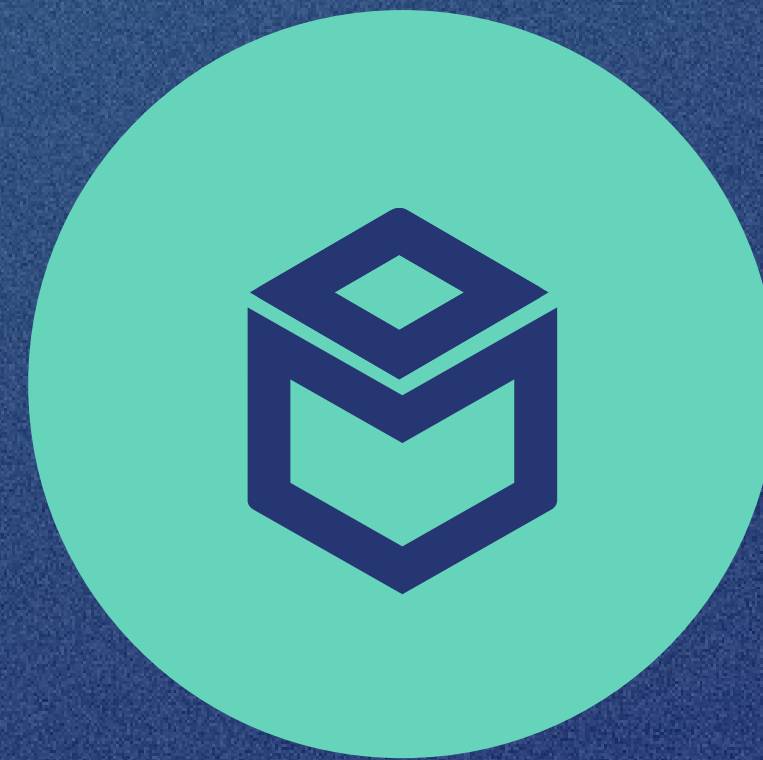

GPS Location tagging so you don't get lost

MightySighty has native location tagging and map interface for uploads. A useful feature if you regularly upload files on the go or potentially have imagery being supplied from different sources. Photographer on the go? You're covered. Event photography? Sorted.

Successful DAM
